

# AireShare™ Transfer Fans

Make hot or cold rooms more comfortable. Extend comfort from ductless heating and cooling

Room to Room

Level to Level

The perfect companion for homes, condos, hotels and buildings with:

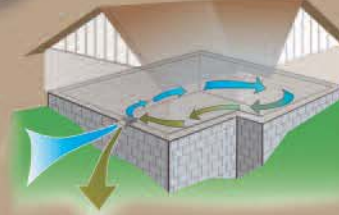

- Split system, PTAC & Window A/C.
- Space heaters, stoves, fireplaces & cool lower levels.
- 50% quieter than other transfer fans.

# XCHANGER™

Reversible Basement Ventilation Fan

**Cure Damp,  
Musty Basements**

**Also great for  
garages, storage  
areas, cabins  
and workshops**

- Save over \$100/yr in electricity costs compared to a dehumidifier.
- 2 reversible fans provide air supply, exhaust or balanced exchange.
- Built-in dampers eliminate air infiltration.
- Adjustable dehumidistat and separate on/off switches for each 90 CFM fan included.
- Speed control plus ducting kit available.

Innovative products that promote energy savings, health and comfort

# UnderAire™ Crawl Space Ventilators

- Ventilates excess moisture to reduce mold, mildew and rot.
- Increases air circulation to fight condensation.
- Reduces radon, off-gassing and odor migration into living areas.
- 110 and 220 CFM models, built-in dehumidistat.

# Dryer Duct Booster® Guaranteed No Clog

**Boosts long or restrictive dryer duct runs**

- Save energy by reducing drying times up to 50%.
- Lint Blitzer™ impeller reduces lint build-up, a potential fire hazard.
- Easy installation, automatic operation.
- Permanently lubricated, ball bearing motor positioned out of air stream.

# Rooftop Inducers Up to 70% Energy Savings with Demand-Based Draft or Exhaust!

**For gas, oil & solid fuel. Power ventilator rated for dryers, ovens and general exhaust.**

- COP control modulates Inducer to save energy.
- Speed adjustability fine tunes performance.
- Backward inclined stainless steel wheel repels soot.
- Patented auxiliary motor cooling fan extends motor life.
- Hinged base mounts to metal or tile lined flues.

# Hot Shot™ Universal Stove Blower

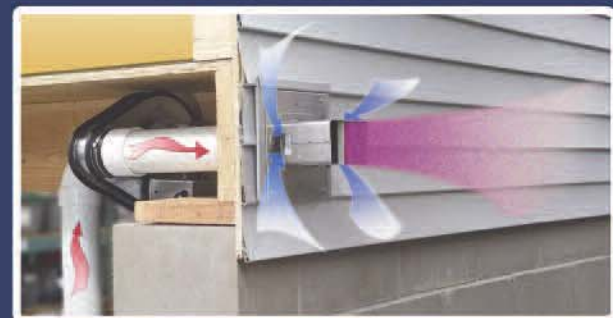

- Captures and distributes heat from your stove that is otherwise wasted. Warms rooms up to five times faster.
- Silently pushes room air between the unit's "heat capture chute" and the stove top, warming it along the way and then propelling it into the room.
- Adjustable chute attachment and turning vanes direct warmed air left or right up to 45°.
- Easy plug-in electrical, installs without tools.

# Fresh Air In-Forcer™ Powered Intake Fan

- Provides a simple, economical way to provide fresh, outside air to dilute trapped pollutants and replace air vented by exhaust fans, fuel burning equipment or fireplaces.
- Plug into a switched outlet, use a remote on/off switch or a plug-in timer to operate on a desired schedule.
- Standard 4" flex or metal duct may be used for ducting.
- Efficient 90 CFM fan consumes only 20 watts.

# RADON VAC™ Side Wall Radon Mitigation System The Effective and Low Cost Solution for Existing Homes

- Hood dilutes and propels exhaust away from home.
- Eliminate intrusive interior or ugly pipe runs up home's exterior.
- Sealed blower housing prevents leakage.
- Quiet, efficient operation—uses only 50 watts.
- 10-year, no maintenance warranty.
